

## K10 Surface Readout (SRO) Unit

The K10 Surface Readout (SRO) Unit operates with either a K10 Quartz or K10 Strain pressure and temperature gauge. The unit provides power and receives data from the downhole tool over a single conductor cable. The data is displayed at the Surface Readout System and/or PC. The unit will also record depth and line speed when using a digital encoder.

### Features:

- Digital display (SRO)
- 24MB non-volatile memory
- Real time display on unit and/or PC
- USB Interface
- Rugged Pelican case
- Rechargeable batteries
- Displays depth and line speed with optional encoder
